This resume outlines my background, achievements, and the projects I am most proud of!

🎓 Education

University Education:

- › Bachelor of Science **MIPT, 2023**, *Applied Mathematics & Physics*, **GPA 4.7**
- › Master of Science **MIPT, 2025**, *Applied Mathematics & Physics*, **GPA 4.9**

Additional Education:

- › Deep Learning School (DLS): **CV** (Spring 2025), **NLP** (Autumn 2025)

🧰 Work Experience

- › **2021-2025: Research Engineer** at the Central Aerohydrodynamic Institute (TsAGI). Conducted numerical and theoretical research on aerodynamic noise radiation mechanisms in hot flows.

🏆 Achievements

- › Winner of **Kaggle** competitions (**one, two**).
- › Winner of the MIPT **Hackathon**, *Tsifrium* case, team *Konspektum*, **2025**.
The task was to create a **service** that generates notes for educational videos.
- › Winner of the **I am a Professional** Olympiad in Mathematical Modeling, **2025**.

❤️ Hobbies

- › I play **basketball** and was the Team Manager & Captain.
The basketball section was my major source of energy at Phystech. I not only took a break from studies but also met a lot of talented people and felt like a team leader for the first time (growing personally as well, I believe).

Until 2023, we trained without a coach and just played. However, after a frustrating defeat in competitions, we wanted to play better, which 100% required a coach. As the captain, I had to solve this issue.

TL;DR: I found sponsors and a coach, we renovated the court, bought new equipment, held a cool open tournament in the fall where we recruited a new faculty team, and in the spring, we took 2nd place in the MIPT inter-faculty competitions.
- › Taught various subjects to different audiences: school physics for an 8th-grade physics-math class (Spring 2021), a proprietary course on hydrodynamics for 3rd-year MIPT students (Autumn 2021), and Olympiad physics at MIPT (2023).

› Development of the project **BOTAY FALT, 2020-2021**.

This project was designed to aggregate study materials in one place. Phystech used to have an endless Google Drive where it was convenient to store everything. A VK group was created around this drive, publishing various collections of study materials and useful articles.

Supplement

Higher Mathematics

Course	Credits	Grade
Analytic Geometry	3	Excellent
Introduction to Mathematical Analysis	6	Excellent
Harmonic Analysis	3	Excellent
Discrete Mathematics	3	Excellent
Differential Equations	6	Excellent
Multiple Integrals and Field Theory	3	Excellent
Linear Algebra	3	Excellent
Mathematical Methods of Experiment Planning and Interpretation	4	Excellent
Multivariate Analysis, Integrals, and Series	6	Excellent
Probability Theory	2	Excellent
Theory of Functions of a Complex Variable	4	Excellent
Equations of Mathematical Physics	7	Excellent

Computer Science

Course	Credits	Grade
Mathematical Foundations of Machine Learning	5	Excellent
Computational Mathematics	6	Good
Computational Methods in Mechanics	2	Excellent
Informatics	7	Excellent
Computer Technologies	6	Excellent
Finite Element Method in Computational Aerodynamics	2	Excellent
Neural Network Technologies and Robust Optimization in Aerodynamics	3	Excellent
Digital Signal Processing and Control Theory	5	Good

General and Theoretical Physics

Course	Credits	Grade
Analytical Mechanics	7	Excellent
Quantum Mechanics	4	Good
Kinetic Theory of Gases	3	Excellent
Oscillations and Waves	2	Good
General Physics: Quantum Physics	2	Good
General Physics: Laboratory Practicum	15	Good
General Physics: Mechanics	4	Good
General Physics: Optics	4	Excellent
General Physics: Thermodynamics and Molecular Physics	4	Excellent
General Physics: Electricity and Magnetism	5	Excellent
Foundations of Modern Physics	3	Sat.
Foundations of Modern Physics: Laboratory Practicum	2	Good
Statistical Physics	3	Good
Field Theory	2	Excellent

General Education Courses

Course	Credits	Grade
Health and Safety	1	Passed
The Art of Being a Spectator	3	Excellent
History	1	Good
Logic and Argumentation	2	Excellent
Fundamentals of Political Science	1	Good
Jurisprudence	1	Excellent
Philosophy	1	Good ¹
Economics	2	Excellent

English Language and Physical Education

Course	Credits	Grade
Foreign Language (English, Level B2)	17	Good
Foreign Language (English, Intercultural Communication)	4	Good
Physical Education	2	Passed

Special Courses (Aerodynamics and Related Disciplines)

Course	Credits	Grade
Aircraft Cabin Acoustics	2	Excellent
Asymptotic Theory of Separation	2	Excellent
Aeroacoustics	4	Excellent
High-Speed Aerodynamics	3	Excellent
Control Surface Aerodynamics	1	Good
Aerodynamic Heating	3	Good
Introduction to Aerodynamics	3	Excellent
Introduction to Flight Physics and Aviation Technologies	1	Excellent
Vortex and Separated Flows	5	Excellent
Hydrodynamics of Marine Vehicles	2	Excellent
Hydrodynamic Stability	4	Excellent
Viscous Gas Dynamics	6	Excellent
Flight Dynamics	2	Good
Rarefied Gas Dynamics	3	Excellent
Fundamentals of Engineering Training	5	Excellent
Fundamentals of Strength of Materials	3	Excellent
Fundamentals of Turbulent Boundary Layer	2	Excellent
Applied Gas Dynamics	2	Excellent
Strength of Aircraft Structures	4	Sat.
Theoretical Hydrodynamics	7	Excellent
Technique and Methodology of Aerodynamic Experiment	8	Good
R&D Management	2	Excellent
Fluid Flow Control	1	Good
Physical and Numerical Modeling of Turbulence	4	Excellent
Unsteady Aircraft Aerodynamics	1	Excellent
